The Department of Defense recognizes the importance of stakeholder participation in its Installation Restoration Program. Therefore, Fort Monmouth is announcing the establishment of a Restoration Advisory Board (RAB). The purpose of the RAB is to improve public participation by involving the communities in the restoration decision-making process.

The RAB will include community volunteer members who reflect the diverse interests of the local communities. RAB members will have an opportunity to provide input on installation restoration activities. RAB community members can expect to spend 2-4 hours-per-month supporting the RAB. RAB members will be asked to meet regularly and review and comment on plans and activities relating to the ongoing environmental studies and restoration activities at Fort Monmouth. RAB members will be expected to serve as a liaison with the communities and the installation and be available to meet with community members and groups. RAB members should live and/or work in the affected communities or be impacted by the environmental restoration program. Members will be expected to serve a term of one year with an option of renewal. All RAB meetings will be open to the public.
